
VINCENT MUINDE MUMO

Full-Stack Developer • Laravel • PHP • Vue.js • MySQL

Nairobi, Kenya | +254 757 386 259 | vmumo89@gmail.com | github.com/Vinmumo | linkedin.com/in/vincent-mumo-940635252

PROFESSIONAL SUMMARY

Full-stack developer (BBIT, JKUAT) who builds and maintains web applications end to end. Recently built a Laravel 10 REST API secured with Sanctum and role-based permissions, and Vue 3 single-page apps using Pinia and Tailwind CSS. Comfortable designing and optimizing MySQL databases, integrating RESTful APIs, and shipping to production. Currently working remote across freelance and internship roles, with experience owning features independently and communicating async. Fast learner with strong problem-solving instincts, eager to contribute within a production Laravel/Livewire environment.

TECHNICAL SKILLS

Languages: PHP, JavaScript, Python, SQL, HTML5, CSS3

Frameworks & Libraries: Laravel, Vue.js (Vue 3, Pinia, Vue Router), ReactJS, Flask, Tailwind CSS, Bootstrap

Laravel Ecosystem: Laravel Sanctum, Spatie (Permission, Laravel Data, Query Builder), Blade, PHPUnit

Databases: MySQL, SQLite, phpMyAdmin

Tools & Workflow: Git, GitHub, Postman, Docker, Vite

PROJECTS

Event Ticketing REST API — Laravel 10, Sanctum, Spatie Permission, PHPUnit

- Built a RESTful API for ticket-tier management on an events platform, secured with Laravel Sanctum and role/permission-based authorization via Spatie Permission.
- Implemented filtering, sorting, and relationship includes with Spatie Query Builder, DTO validation using Spatie Laravel Data, and PHPUnit feature tests against an in-memory SQLite database; documented endpoints with a Postman collection.

Code: github.com/Vinmumo/backend_test

I-Reporter — React, Flask, PostgreSQL

- Built a civic reporting platform letting citizens report corruption and incidents needing government intervention, with geolocation tagging and media attachments.
- Implemented admin status tracking on a Flask/PostgreSQL backend, with a React front end consuming the REST API.

Code: github.com/Vinmumo/IReporter-server Live: i-reporter-client-1.vercel.app

Don-Jerseys — Full-Stack E-Commerce Store — React, Flask, M-Pesa, Docker

- Built a full-stack jersey store with product variants, cart customization, an admin catalogue, promo codes, an order-status workflow, and M-Pesa checkout.
- Developed a React storefront backed by a Flask REST API with JWT-protected admin permissions, server-side order totals, and inventory reservation; containerized the app with Docker.

Code: github.com/Vinmumo/Don-Jerseys Live: don-jerseys.vercel.app

EscrowEase — React, Tailwind CSS, Flask, PostgreSQL (Team project)

- Collaborated on a secure escrow platform that holds funds in trust until both parties fulfill a transaction, covering deal creation, milestone tracking, and dispute flows.
- Contributed to the React front end integrating against a Flask REST API and PostgreSQL database.

Code: github.com/4kClinton/Escrow-ease-group-Project Live: escrow-ease.vercel.app

PROFESSIONAL EXPERIENCE

LLM Evaluator | Freelance / Remote

January 2026 – Present

- Evaluate AI model outputs by reviewing task completion, reasoning quality, code correctness, and instruction-following.
- Compare model response trajectories and document differences in process, final output, testing behavior, and overall performance.

Legal Transcription | Freelance / Remote

October 2024 – December 2025

- Transcribed legal audio recordings, hearings, and case files into accurate written documents while maintaining strict confidentiality.
- Reviewed and proofread transcripts for grammar, formatting, and consistency with legal terminology, and ensured timely delivery.

IT Intern | Ministry of Information, Communications & the Digital Economy

Sep – Dec 2022; Jan – Sep 2024

- Built and maintained internal web tools using HTML, CSS, JavaScript, and ReactJS, working with the backend team to integrate RESTful Flask APIs.
- Designed and optimized MySQL database schemas, and contributed feedback during peer code reviews.
- Delivered technical and hardware support and troubleshooting for internal systems and office computers.

EDUCATION

BSc, Business Information Technology (BBIT) — Jomo Kenyatta University of Agriculture and Technology (JKUAT)

2020 – 2024 | Second Class Honours (Lower Division)

Certified Software Engineer — Moringa School

June 2024 – December 2024

Kenya Certificate of Secondary Education (KCSE) — St. Charles Lwanga High School

2016 – 2019 | Grade: B

LEADERSHIP & VOLUNTEERING

- IT Club Committee Member — managed operations and industry partnerships supporting student professional development.
- Volunteer Mathematics Tutor (Forms 3–4), 2019 — helped underperforming students improve their grades.
- Long-term volunteer at Cheryl's Children's Home, supporting vulnerable children and orphans since 2019.
- Table Tennis Captain, high school team (2019) — led the team to the Eastern Regionals finals.

ADDITIONAL INFORMATION

Languages: English (Native/Bilingual), Swahili (Native/Bilingual)

Interests: Web development, community development, networking, reading, travelling, drawing, table tennis
